

2022 FTMTA Farm Machinery Show 13th & 14th of July Punchestown Racecourse, Co Kildare.

This years Farm Machinery Show takes place outdoors in Punchestown Racecourse, Nass, Co. Kildare over two days on Wednesday the 13th & Thursday the 14th of July 2022.

The FTMTA Farm Machinery Show has now grown to become the flagship event of the Irish farm machinery show calendar. The most recent show in 2019 was the largest ever such event with an attendance of over 20,000, some 170 individual exhibitors across over 200 distinct exhibits, including indoor stands and outdoor display areas. The FTMTA views the provision of a dedicated, professional, machinery exhibition to showcase the products and services of the farm machinery industry as a very valuable service to the members of the Association.

The FTMTA Farm Machinery Show is underpinned by the ethos that it is organised by the trade for the farmer and contractor and the Association believes that this is what has driven the success and growth of the Show over the years. In keeping with this philosophy, exhibitors must be genuinely agricultural focussed businesses and there is no duplication of exhibits permitted.

All of the leading Irish and international manufacturers active in the Irish market have a presence at the Show with manufacturer personnel and product experts on hand to speak with visitors.

If you are interested in exhibiting at this years show then please get in touch. If you are interested in attending the show then follow the links to buy your tickets.

We look forward to seeing you all in Punchestown on July 13th & 14th.
